JORIM HUKINS

Lafayette, Louisiana • jorim.hukins@gmail.com • linkedin.com/in/jorim-hukins-3b020a263

PROFESSIONAL SUMMARY

Operations professional with more than 10 years of experience in inventory control, delivery logistics, and team leadership across retail and distribution. Coordinated 75 to 300 deliveries a day, led a team of 30+ employees, and built written procedures and tools that keep operations consistent and independent of any one person. Brings a designer's eye from a web design background at Full Sail University, applied to everything from showroom signage to website layouts.

SKILLS

Inventory Control & Auditing • Delivery Routing & Dispatch • Order Fulfillment • Team Leadership & Training • Procedure Writing & Documentation • System Rollouts & Change Management • Purchasing & Vendor Coordination • Customer Service • Graphic & Web Design (Canva, Photoshop, WordPress, Wix, Squarespace, HTML/CSS) • Basic Python Automation • Photography • Microsoft Office

PROFESSIONAL EXPERIENCE

Publishing Coordinator | Palmetto Publishing Jul 2026 – Sep 2026
Charleston, South Carolina

- Managed 50 concurrent self-publishing author projects, tracking deadlines and details for each.
- Provided creative direction on book covers and reviewed proofs and interior layouts before release.
- Recognized by the company for outstanding customer service.

Operations Manager | General Office Supply Feb 2023 – Apr 2026
Lafayette, Louisiana

- Led a team of 30+ employees across a multi-location business generating approximately $20M in annual revenue.
- Coordinated 75 to 300 deliveries per day: each morning prepared the prior day's orders and matched overnight special orders, built each driver's route, and adjusted routes throughout the day to meet customer needs.
- Managed more than 2,000 in-stock items and coordinated with purchasing on stock levels and special orders.
- Introduced random audit counts and restricted inventory access, producing one of the best inventories in company history.
- Researched and selected a digital Proof of Delivery system to replace paper records, mapped its impact on every role from drivers to accounting, resolved issues before launch, and led the company through the transition.
- Streamlined record-keeping through the new system, allowing accounting to go from 5–6 people (including borrowed help) to 3, with borrowed staff returning to their regular roles.
- Developed a Python tool that generates branded showroom signage from spreadsheet data, batch-processing items, applying the correct vendor template automatically, and allowing preview and edits before exporting print-ready PDFs. The signage is still in use.
- Designed the page layouts for the company's new website, later completed by the company's web partner.
- Wrote procedures for daily operations, employee training, and system processes so standards never depended on one person's knowledge.

Store Operations Specialist & Customer Service Manager | At Home Aug 2022 – Feb 2023 • Oct 2016 – Jul 2018
Lafayette, Louisiana

- Led front-end customer service, resolving escalations and supporting associates.
- Served as an inventory team lead, preparing associates for accurate annual counts.
- Trained associates on store procedures and customer service standards.

Office Manager | Shane's One-Stop Auto Shop Aug 2021 – Jan 2022
New Iberia, Louisiana

- Managed scheduling, estimates, billing, payment processing, and records for a busy auto shop.
- Kept customers updated on repair progress and timelines.

Millwork Sales Specialist | Lowe's Jun 2018 – Nov 2020
New Iberia, Louisiana

- Generated $30K–$40K in monthly sales and ranked Top 5 among roughly 60 specialists district-wide.

- Served as an inventory team lead and managed team hours to stay within labor budget.
- Helped lead the store safety team.

Dock to Stock Lead & District Trainer | Big Lots 2013 – 2015
Louisiana

- Served as district trainer for the Dock to Stock program, traveling to stores across Louisiana to standardize receiving and stocking processes and train teams.
- Led all freight processing for the home store, from furniture to general merchandise, and opened and closed the store as a keyholder.
- Scheduled truck team hours to stay within labor budget.
